BEVOLO GAS & ELECTRIC LIGHTS: HANDMADE ARTISTIC DESIGNS

Since its beginning in 1945, Bevolo Gas & Electric Lights has been crafting beautiful pieces of lighting artwork. Take a walk through the French Quarter in New Orleans and you will see the company's now-iconic copper lantern at almost every turn. Visiting the shop, one can actually view the Bevolo coppersmiths crafting more than 500 historic styles, designed by legendary architects.

Adding to the Poolhouse Collection—which features the popular Governor lantern—Bevolo recently introduced the Highland Park and Rault lanterns. The design possibilities are endless with these portable and versatile lights. See them at bevolo.com.

Send plans, elevations, or photos of your home or project; Bevolo will match the correct style and scale, ensuring the perfect lighting.

[1] The Poolhouse Governor lantern by Bevolo.

[2] All Bevolo lights have distinguishing consecutive serial numbers and maker's marks, which make them truly tomorrow's antiques today. Shown: English Regency.

[3] With the industry's most efficient lifetime burner coupled with the purest antiqued copper (a 300-year projected life), it's no wonder Bevolo has been called one of the greenest lights.

[4] Bevolo Gas & Electric Lighting Museum is now open in the French Quarter, on the world-famous Royal Street.
